DETAILED ACTION

1. Applicant's arguments regarding claim 16 are convincing.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 22, 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites the limitation "the output signal" in line 23 and "the song" in line 25. There is insufficient antecedent basis for this limitation in the claim.

Claim 27 recites the limitations "the output signal" in line 20 and "the song selected" in line 22. There is insufficient antecedent basis for this limitation in the claim.

The claims that depend from the above claims are rejected for the same reasons.

Allowable Subject Matter

3. Claims 16-17, 20-21 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As per Claim 16.

The prior art, specifically Castile ('502) in view of Cohen ('187) further in view of Verdun ('802) or Tashiro ('836) do not disclose or fairly teach:

a computer jukebox comprising a communication interface for receiving compressed digital song data, the song identity data and compressed pictorial graphics; a processor; a memory connected to the processor and a memory including a decompression algorithm for decompressing compressed digital song data, instructions causing the processor, when no song is playing on the computer jukebox to generate a user attract mode wherein digitally-stored song associated graphic images are shown on the display.
